PIONEER MILL PROSPEROUS YEAR

The stockholders of the Pioneer Mill Company who met Saturday afternoon in the offices of Hackfeld & Co., listened to a very favorable though brief report on the condition of the corporation, whose plantation is located at Lahaina.

President John Hackfeld in the absence of Manager Barkhausen, presented the following report on the general condition of the property:

The crop of 1908, I am pleased to state, considerably overran the manager's estimate, the actual results being 27,146 tons of sugar.

On account of the unusually low rainfall during the year, the pumping expenses were larger than for the previous year, but this was nearly offset by the saving in weeding expenses.

The crop of 1909 is estimated at about 180,000 tons of cane, which should yield 25,000 tons or over of sugar. The purity of the juice so far this year has been equally as good as last year.

For the crop 1910 the area is about the same as this year's, and, at the present writing, the cane is looking very promising.

NEW NAVIGATION LAWS WANTED

New Commission Advises Important Changes in Regulations

Washington, Feb. 9. — President Roosevelt yesterday sent to the Senate the report of a commission appointed by him to make an examination of the laws enacted for the better security of life at sea, with a view to their better adaptation to the present needs. The report recommends a systematic rearrangement and codification of existing laws, together with such changes as experience and present-day conditions seem to require.

The commission is composed of Rear-Admiral Marix of the Navy; Charles A. Earl, Solicitor of the Department of Commerce and Labor; George Uhler, supervising inspector general of the steamboat inspection system, and Commander W. S. Smith of the Navy.

It is proposed by the Commission to reorganize the marine inspection service so as to include all types of vessels and to rearrange salaries in order to get a better class of men. All steam and motor vessels carrying passengers for hire, steam and motor vessels of more than thirty-five feet between perpendiculars, are included among the vessels that require inspection by this service. Instead of limiting to sailing vessels of 700 gross tons that are to be inspected, all sailing vessels of 300 gross tons are to be inspected, and such sailing vessels of fifty gross tons or over which carry passengers for hire are to be included.

One provision of the bill requires that all lifeboats shall be fitted so as to enable them to be launched in less

than two minutes. An efficient wireless telegraph apparatus on board certain vessels is required.

CRISIS LOOKED FOR IN HEARST-HASKELL WAR.

Guthrie, Okla., Jan. 29. — A sensational crisis in the war between Governor Haskell and Editor William R. Hearst is fast approaching, according to most of Oklahoma's politicians. If County Judge Strang dismisses the case of Scott McKeenolds, Hearst's New York legal representative here, and returns to McKeenolds his papers gathered for Hearst's defense in Governor Haskell's libel suit against McKeenolds, Governor Haskell will have McKeenolds immediately rearrested and arraigned in some other county, probably Pawnee. It is stated.

Haskell is to have others arrested on charges of conspiracy. Hearst's New York lawyers are urging prosecution of Haskell for alleged libelous statements published immediately after McKeenolds' arrest. Oklahoma newspapers which published them are retracting, including the Oklahoma City Daily Oklahoman, state democratic organ. The constitution's search and seizure will be interpreted for the first time.

HARRIMAN IS IN POOR CONDITION

Chicago, Feb. 5. — E. H. Harriman, the railroad magnate, is far from being a well man, according to reports persistently circulated today in financial circles here and in the East. For several weeks, it is said, Harriman has been a willing patient in the hands of his physicians, and his intended trip to California is said to be for the purpose of restoring his health.

"It is no longer a secret that Mr. Harriman is a sick man," said a well-known La Salle-street broker. "A few weeks ago when I was in New York I was told by persons in a position to know that he is suffering from a serious nervous disorder of the spine."
